The week opened quiet in the Wall street mar-kets, if we except a little spasmodic activity at the very start, which later gave place to dulness, MONEY ACTIVE.

The money market was active from the beginming, when the stock brokers paid 7 per cent in gold, although borrowers on government collaterls were, as a rule, accommodated at 7 per cent eurrency. Towards two o'clock borrowers began to allow a commission of 1-32, and before the close of banking hours there was a sharp and sudden inquiry, which led to transactions at as high as ONE-EIGHTH PER CENT COMMISSION

in addition to legal interest, with, at the "very' close, a reaction to 1-16 and interest, the extra rates being paid both for turning stocks and in the ordinary way. In explanation of the stringency developed in the closing hour of the loan market it is said that the brokers, remembering the 4 per cent business of Saturday afternoon, were in no burry to take their money to-day, and in the general scramble for balances to make up accounts caused the precipitation of so active a demand late in the day. At the same time the banks are CURTAIL THEIR FAVORS

to Wall street in view of the low line of their legal reserve. These two reasons readily account for the stringency developed in the money market this afternoon. Mercantile paper is negotiable only at a heavy discount, and prime names are accessible at 12 per cent. Foreign exchange was actively weak and lower for sixty days' sterling, and heavy and dull for sight bills. The former sold at 108% out of second hands, the transactions being for account of stock operators who had borrowed them upon pledge of stock collaterals, while the counter rate of the leading drawers continued to be 168%. Sight bills sold at 110 a 110%, against 110% at the desk. In London consols were % a % per cent better, and our bonds steady and firm, the general market being quiet. Money was reported easier on the street. Eries were active and strong. GOVERNMENTS STEADY.

The government list was steady, but only moderately active. The recent advance in prices has checked the inquiry from the foreign bankers, especially as the foreign market has receded a fraction, under intelligence of shipments from this side. The currency were quoted as before, but actual business was at a little improvement in prices. The following were the closing quotations :-Emited States currency sixes, 113% a 113%; do. do., 1881, registered, 116 a 11614; do. do., coupon, 117 a 11736; do. five-twenties, registered, May and November, 112% a 112%; do. do., 1862. coupon, do., 112% a 112%; do. do., 1864, do. do., 112% a 112%; do. do., 1865, do. do., 112% a 113%; do. do., 1867, registered, January and July, 114% a 115%; do. do. 1865, coupon, 114% a 115%; do. do., 1867, do. do., 115% a 115%; do. do., 1868, do. do., 115% a 115%; do. ten-forties, registered, 108 a 108 %; do. do., coupon, 108% a 108%; do, fives of 1881, registered, 109 % a 110; do. do., coupon, 109 % a 110.

STOCKS IRRUS-LAR AND LOWER.

The stock spectation was tamer, and after an early effort of the "buils," which temporarily dvanced prices ¼ a ½ per cent, the manufactured in favor of the "bears" who put out a aid line of sales in reliance upon Saturday's bank statement and the prospect of a scarcity of money, the latter calculation not having been very far wrong, in view of the day's developments. The early upward movement was led and assisted by a further rise in Erie, which followed and overtook a rise of about one per cent in London, an improvement abroad which was probably based on the late rise in this market on Saturday tast, and is so explained without the theory of a command movement in both markets. With midday the tide began to ebb and the rest of the afternoon's business was attended by a gradual decline, the closing being the lowest prices in most instances. The hope deferred in the case of the steamer Arizona rendered the friends of Pacific Mail stock less sanguine of the steamer's safety, despite the cited precedent of another steamer similarly situated which was fifteen days overdue before being heard from. The shares closed at 85 as against 86%, being the greatest fluctuation of the day after Erie, which varied as much as 134 per cent between its extreme quotations.

MONDAY, Nov. 18-6 P. M. As was predicted in this column on Saturday, the business marts to-day presented a scene of great activity and buoyancy, and we have to chronicle a further general improvement of values. Those great hindrances to active trade operations-the horse disease and the Boston fire-are events of the past, from the effects of which mer-cantile circles have almost entirely re-covered. The influence of the fire is still feit in certain quarters, but the general markets have recovered from the shock and business is again steadily increasing in volume, while the markets are, by consequence, much more buoyant than they have been for some weeks. The export movement continues active, and on 'Change to-day breadstuffs were again sought after, and wheat was decidedly higher and closed active at the improvement, Corn was comparatively quiet, yet a fair business was done for shipment at steady prices. There was an active speculative movement in oats, partly on Western account, and prices jumped up 2c. to 3c. per bushel in as many minutes. The movement in provisions was again sluggish, and pork remained nominal. Lard was not active, but there was a little more tone to the market. The demand for freight room was fair, but rates were scarcely so firm by steam, though full rates were obtained by sall. Vessels for charter were intrly active, and rates were maintained in almost all cases, while in some higher rates were demanded. Cotton was in good demand and very firm, closling higher lor the luture months. Groceries continued very quiet, but there was no material change la prices. Fetroleum was still nominal, but held with considerable firmness. Naval stores were irregular, and, if anything, slightly easier for rosin. Whiskey sold quite freely at unchanged figures.

Coorne.—The market has been very quiet foday, but nevertheless firm. Desirable qualities are scarce. We quote:—Rio, ordinary cargoes, 16c. a 185c.; gold, of and 30 dhys; Markealob, (ic. a 18c.; Laguavra, Ric. a 185c.; sc.). Bomingo (in bond), 16c.; Java, 185c. a 19c. was a little more tone to the market. The demand for

goid.

COTTON.—The inquiry for cotton was fairly active, but owing to the former attitude of holders in consequence of the upward turn in future deliveries sales for immediate delivery were somewhat restricted. No advance was shown by the sales. Future deliveries ruled active and \$\frac{1}{2}\elliveries in the sales reported on 'Change to-day sum up as follows:—

THE INSURANCE COMPANIES.

serious Embarrassment Still Apprehended-Another New York Company

Swamped. The excitement attending the Boston fire last week had barely subsided when late on Saturday evening another company doing business in this city suspended, as the officers term it, and fol-lowed the International, Humboldt and Washcity suspended, as the officers term it, and followed the International, Humboldt and Washington As the Herallo predicted, some of the institutions affected by the fire which expected to have no difficulty in making up their losses by assessments, have found promises on the part of their stockholders one thing and action another. Several of those whose directors had voted to make good the deficiency have so far been unsuccessful, and are now considering what course to pursue. The Washington Insurance Company, with a capital of \$200,000 and \$50,000 surplus, put their losses a few days ago at the nominal figure of \$70,000. Yet at a meeting of the directors held on Saturday evening they were unable to make up the deficiency, and resolved to suspend. This course has given new inspulse to the anxiety entertained in insurance circles, as it was believed to be safe, and it is thought that many other companies may have the same experience before many days pass. Among the companies which it is understood have not yet secured the payment into their treasuries of the necessary assessment are the Corn Exchange, the Arctic, and, rumor says, the Hoffman. The officers of these companies, nowever, maintain that they will be successful in this particular. A reporter of the Highard, who yesterday visited the Washington, had great difficulty in obtaining any facts as to its condition. The Secretary said they had merely suspended and might go on again; but a gentleman sitting at the President's desk, and believed to be that gentlefman, in response to the question as to the assets and liabilities of the company replied, "Our losses are more than our entire capital and surplus as it now stands." The capital and assets are \$250,000, so the company must have sustained more than that loss at Boston, instead of \$70,000, given as their loss to a Highald preporter on Tuesday last. Outside parties report that the company while he able to pay anything on the stock, if the officials statements are to be relied upon. In the face of such a con ngton As the HERALD predicted, some of the
